About This Game

Spectra is a dynamic twitch racing game that will keep you on the edge of your seat! Blast your nimble ship down intricate ribbons of light in time to the dynamic beats and original soundtrack by chiptune artist legend [Chipzel](#) (Super Hexagon, Size Does Matter, Interstellaria).

Be prepared to get your heart pumping as you drift into a trance with just one objective- survive till the music stops! Navigate around obstacles, collect points whilst trying to drive with as much style as possible and stay on the road. As the player progresses through the levels, the speed increases requiring more advanced dexterity to survive!

Featuring two powerful gameplay modes (Normal and Hardcore) with 10 unique music tracks used to generate procedural levels, race against the beat to experience unlimited playthroughs! Staying sharp is essential and reaction timing vital as memory is obsolete with this nostalgia-driven, arcade-like game. Spectra is a veritable homage to arcade games of old; true mastery will require all your twitch skills and the beautiful retro-style graphics will have you just itching to dig up your Atari!

「抓紧！在进入市区前拦下目标」

音无朔背着发出催促的时乃，在直升机旋翼卷起的狂风中，以右手稳稳得按住长长的黑发同时，从滑梯上纵身跃下。

她自然地挺身而立。朔的身姿，不禁令人想到一触即发的烈弓。仅仅站在那里便让人不禁有种周遭空气为之一变的错觉。

而她身边，美鸟优雅的身影并肩而立。没有丝毫的僵硬。反而像恶作剧的孩子般开心的笑容，简直与平时在教室里谈笑风生时别无二致。

<https://www.youtube.com/watch?v=hShSIRFLLDU>. Horrible gameplay and controls compared to the first Commandos. Will probably never open this game again.. Its hard to understand how to play unless you try over and over and over at it until it makes sense, which it never truly does.. can't change the keyboard bindings totally kills the game. what the keys are set to who knows you will learn them by trial and error. be ready to die a lot trying to figure out the keys. . glad i only paid three bucks for it cuz i could only handle about an hour of this game. .. cheaply made game. pass on it.. What is there to tell? It's Pinball with a 'Worms' theme and that's it. The game doesn't do anything bad but doesn't do anything special either and it might enjoy you for a few minutes but it's way too expensive.. CANADA:

It wants to kill you.. Received this game in exchange for my review, which can be found here:
<http://opnoobs.com/reviews/indie/adventure/case-animatronics-review>. Fun game, and on sale!

Kinda like the old Space Wars in the 80's but with updated graphics, story, missions, and crafting! Can just play a mission or two if you want.

Easy to learn, probably hard to master. Playing it on my Gaming PC in 4K. Will try on an old laptop - hopefully it will scale down so that you can play on any machine.

The aesthetics are beautifully done! Kudos to these Devs! Hope to see more and DLC for such a reasonably priced game.

Good game 10/10. The game is fun for what it is and provides a bit of "I am so bored I will play a facebook app" fun. But that's just the thing, there is a free version of this basically anywhere browser gaming is. I do not recommend this game to anyone for that reason.. I did not use this game to farm trading cards.. Super fun game, no loading times, gets progressively harder, cause destruction. Con for me there is no save option that i can find.

. A perfect game for the broke masochist!. Quite good.. keep scrolling..

Bought only for theme music.

worth it buying a game only to hear a theme music. 12/10. no swimsuit for nepgear 5V10. Have currently played for about 2minutes and I already have my moneysworth. This is hilarious. Please buy it so they can expand upon it with better visuals and more variety.

No Vive game has made me physically fall over or panic more than this one. Get it NOW.. "I am many things. I have been many things".

Thank you AMP for this masterful collection. The keyhole of vision we are given through such artwork is compelling and thought provoking. I'd hope one day we may get to visit these enviroments and peoples first-person, the universe youve created is crying out for an adventure!

For now, we just wait anxiously for the art of Endless Space 2
